

# **EPro8 Challenge**

*Engineer Problem Solve Innovate*

## **Getting Started – Teacher’s Notes**

This activity is designed as a tutorial rather than a challenge.

Students should follow the tutorial video while working through the activities. Go to [www.EPro8Challenge.co.nz/Tutorial](http://www.EPro8Challenge.co.nz/Tutorial) and enter the Challenge Code **STRT**.

**Students must complete this activity  
before doing any of the other activities.**

### **Summary**

This is the introductory tutorial on how to use your EPro8 equipment.

Teams will be guided through constructing a basic frame and shown how to use all of the components of equipment.

### **Principles**

How to use equipment.

### **Extra Equipment**

None.

### **Notes**

Because this is a tutorial format we suggest teams DON'T try and solve it without watching the tutorial video. The video contains a demonstration of how to use all the different pieces of equipment.
